**Subject:** RE: Permittee Change

Hi Travis,

A new Electronic Signature and Use Agreement will need to be completed and then the permit application will need to be signed by the new permittee and submitted in the GSDT. We can pretty easily change the permittee in the project account in the GSDT, so it should not take too long. My estimate would be a couple of business days from when that information is submitted.

Please let me know if you have any other questions.

Elise

**Subject:** Permittee Change

Elise,  
What is the procedure for changing the Permittee / Permit Applicant for a project under Class VI review and what is an expected processing timeframe?

When could we receive official correspondence from the EPA that it has been approved - either through a letter or an update to the website?

Please let me know if you'd like to discuss, I can be reached at 661-342-2409.

Many thanks,

Travis Hurst
